This is one of our favourite key reels! They come with a stainless steel cord with a protective plastic coating which will last much longer than those with nylon cords and the carabiner clip is made from hardened steel for keeping ID cards, keys or other small items handy (suitable for sets of keys and multiple car keys!).

SKU	RE-015
Casing Material	ABS Plastic
Diameter	35mm
Cord Material	1mm Steel

End Clip	30mm Split Ring
User Clip	Carabiner Clip
Colour	Solid
Shape	Round
Pull Strength	90 grammes

They are attractive and strong with a strong carabiner clip on the back which attaches to the users clothing or belt loop. This is particularly useful in the bar and restaurant trade where staff keep dallas keys or bottle openers handy. The secure attachment of the carabiner clip means the reel will not slip off the users belt loop if the till higher than the users waist.

They come with a brushed aluminium sticker attached to the logo recess on both sides of the centre of the casing. Double sided for logo display purposes, these can be customised with a logo or promotional message

if the customer desires - customisation involves the customers logo being applied to a vinyl sticker which is then attached to the centre of the casing. More details on our customised heavy duty key reels are available on our custom badge and key reels pages
